Murray & Roberts Contractors, (Middle East) L.L.C, UAE
 (www.murrob.com)
 Infrastructure & Buildings Contractor and PMC

Murray & Roberts, is a leading construction giant in South Africa chooses Wrench Enterprise as their mainstream Enterprise data management system. Wrench was chosen because of its proven capability to produce enhanced reporting in dashboards rather than the tedious process of manual report generation. With the introduction of Wrench, delays in generating key performance charts will be eliminated and will open up the gates for an easy data transfer. Wrench is also chosen as the corporate standard in UAE because of capability to enforce quality management processes and also it can ensure corporate standardisation across all projects.
