

## What our customers says . . .

### Business benefits

“WRENCH-Enterprise™ has helped us in quick and effective decision making by providing an Information platform to track all our projects online – from the overall progress to intricate details like deliverables, schedules and responsibilities.”

Mr.N.Sivasubramaniam, General Manager,  
Qatar Design Consortium - Doha, Qatar

“WRENCH-Enterprise™ is an IDEA whose time has come. ....(It is) a business solution that enforces business process and thus ensure quality. Engineering data management is incidental as it captured along the process.”

R.D.Augustum Manager-Quality  
Metito Overseas LLC, UAE

“Getting onto WRENCH-Enterprise™ was one of the best business decisions we have made. During our annual meeting), our senior managers voted WRENCH the ‘best thing to happen in 2005’.”

CEO - TATA POWER –SED  
Mumbai, India

“For the past 15 years, we have been looking for a solution that could monitor our projects, ensure compliance, manage engineering and other data and keep all project stake holders on the same page. WRENCH-Enterprise™ was the only solution that offered all the above and more ... now we have total control on the project and 24 X 7 access to the latest data without depending on manual effort.”

Mr. .Ala Hasooun, Head - IT department  
Khatib & Alami, Sharjah, UAE

“As an engineering company, what we produce and what we are paid for is engineering drawings and documents .....managing the schedules, process and data related to these deliverables is most important for our business. We decided to implement WRENCH Enterprise™ to have complete control of these elements.”

Mr. Ian Humphries  
Group Head - Engineering and Procurement  
Simon Carves Ltd, Manchester, UK

# Managing Projects the WRENCH way

“As you are aware, in Abu Dhabi we have implemented a software program called WRENCH-Enterprise™ which provides document and project controls functions and integrates with the like of Primavera and Smart Plant Materials. There are also modules for construction and commissioning. We are using this software for a while now and found it very useful in providing the necessary project and documents controls and monitoring functions as well as ensuring the integrity of our documents.”

“As you may be aware in Abudhabi we have implemented the system and found it an excellent tool to maintain project documentation integrity, monitor workflows, provide project status in real time. Furthermore its web-base and its capability to integrate with Primavera, Oracle, SP Materials and other database is of great value for complex projects. Its use has made work sharing with India office as if India was simply in another room.”

**Romolo Raciti - Vice President (Operations)**  
Ch2Mhill VECO Engineering, Abudhabi, UAE

“In any customer-centric organization, it is crucial that we find ways to manage the multiple processes that go into efficient project management....Although we were skeptical at first, WRENCH-Enterprise™ has proved to be the perfect solution for our company’s needs – it has given our project managers the freedom to focus on customer management and the many details of project execution without worrying about the status of those all-important documents, reports, and engineering drawings.”

**Mr. Venkataswamy, Head- Quality**  
VAtech Wabag Ltd, Chennai, India

“With WRENCH-Enterprise™, I have total control of ALL my engineering deliverables...even the ones that are handled by multiple people, across different groups and locations.”

**Mr.C.Shelley, Manager-Planning,**  
Vatech Wabag Ltd, Chennai, India

“Now we are able to share real-time engineering data that is created by our internal team, our other branches, vendors with the site, clients and consultants. WRENCH-Enterprise™ enables us to put all the stakeholder of a project on a single page.”

**Mr.Jacob James – DGM, BHEL-PEM**  
New Delhi, India

“With WRENCH-Enterprise™ we are able to get the real-time status of key milestones for each deliverables, as well as its % status. We have gained complete control on the schedules of the project. The online report functionality has helped us to review project status periodically with the stakeholders, and reassure our client by providing real time and accurate status reports.”

Mr.Gautham Chakladhar - DGM-Engineering  
BHEL-Transmission Division, New Delhi, India

---

## Implementation and Service

“Gentlemen, I just thought I would drop you a quick line to thank you for your prompt service to our recent requests .....We have had a couple of urgent requests and after contacting you , you have dealt with promptly and effectively. Thank you very much for your support, we really do appreciate it.”

Dave Moss - EDMS Project Manager,  
Simon Carves Ltd, Manchester, UK

---

## Functionality and Evaluation

“...now that WRENCH has passed our evaluation process above 7 other competitors in terms of performance, user friendliness , adaptability , and price, then I believe that I would be selecting WRENCH for quite a few more years without bothering going through a lengthy evaluation process (which started 5 weeks before WRENCH came into the picture).”

Michael Pickup - Director – Quality  
Riseabovealliance (Represented as Leighton Ltd), Abudhabi, UAE

**Note:** Riseabovealliance is a company that has adopted a revolutionary new methodology of handling turnkey project called Alliance contracting, in which the client, consultant and contractor jointly take ownership of the project and thus shares the risks and successes. This minimizes the potential disputes common in turnkey projects as all three party work together with a common goal. Riseabovealliance has been evaluating a system for a long time and narrowed down on WRENCH immediately after they saw the presentation of WRENCH-Enterprise™
